21 st thru 30 th false alarm:	\$200.00 response fee per call
False alarms more than 30:	\$225.00 response fee per call

DRIVEWAY/ WALKWAY INSTALLATION FEES

DRIVEWAYS

The City prefers and encourages the use of Advanced Drainage Systems (A.D.S.) pipe in the installation of driveways requiring drainage pipe for properties located within the city limits abutting city streets. If, however, a citizen wants to use concrete pipe, they can choose that option.

Driveways requiring drainage pipe must be installed by the City unless the City Council gives approval otherwise. Payment for installation of a driveway is due at the time the building permit is issued or, for existing home, prior to the installation of the driveway.

Concrete pipe (16 Ft. min. driveway width)	A.D.S. pipe (20 Ft. min. driveway width)
15" - at \$118.00 Per Ft	15" - at \$88.50 Per Ft
18" - at \$123.75 Per Ft	18" - at \$92.50 Per Ft
24" - at \$140.50 Per Ft	24" - at \$107.00 Per Ft

Note: Prior to the pouring of concrete on driveways that do not require a drainage pipe, the maintenance department must review and approve the height of the finished driveway.

Note: The customer may shorten the width of the driveway to under 20' with a minimum width of 16' but must pay for the cost of a 20' driveway.

WALKWAYS

The minimum walkway width of A.D.S. pipe is 6½'. Other available widths are 10' and 13½'. A walkway installed between existing pipes must be installed with the minimum size of the walkway pipe being the size of the largest pipe on either side. Walkways requiring drainage pipe must be installed by the City unless the City Council gives approval otherwise. Payment for installation of a walkway is due at the time a building permit is issued or, for existing homes, prior to the installation of the walkway.

A.D.S. pipe (6½' minimum)

\$88.50 per foot – 15"

\$92.50 per foot – 18"

\$107.00 per foot – 24"

***All quotes issued by the city are valid for 30 days.**

UTILITIES & SOLID WASTE FEES
